

recent acquisition of

ADV Integrity, Inc. is excited to announce the acquisition of **HT Engineering, Inc.**, based in Grand Rapids, Michigan. Boasting a rich history spanning 50 years, HT Engineering has built a reputation as a premier engineering consulting firm with specialization in projects centered around integrity and design work. **Brian Cooper, PE**, President of HT Engineering, will join ADV's Board of Directors and also serve as the Director of the newly formed Integrity and Design Group.

With this acquisition, ADV Integrity proudly expands its team to comprise of 42 dedicated engineers, technicians, and administrative professionals, all sharing a singular mission: to excel in meeting the needs of the pipeline industry. In addition to ADV's expertise in full-scale testing, mechanical testing, materials, welding, failure analysis, technology validation, and numerical modeling, the incorporation of HT Engineering allows us to further extend our offerings. We now proudly offer comprehensive pipeline integrity and design services.

For further details or inquiries, please contact **Buddy Powers**, our Director of Business Development, or **Dr. Chris Alexander, PE**, the President and Founder of ADV Integrity.
